

How to navigate and find additional information on resources using the Habersham County Family Connection website

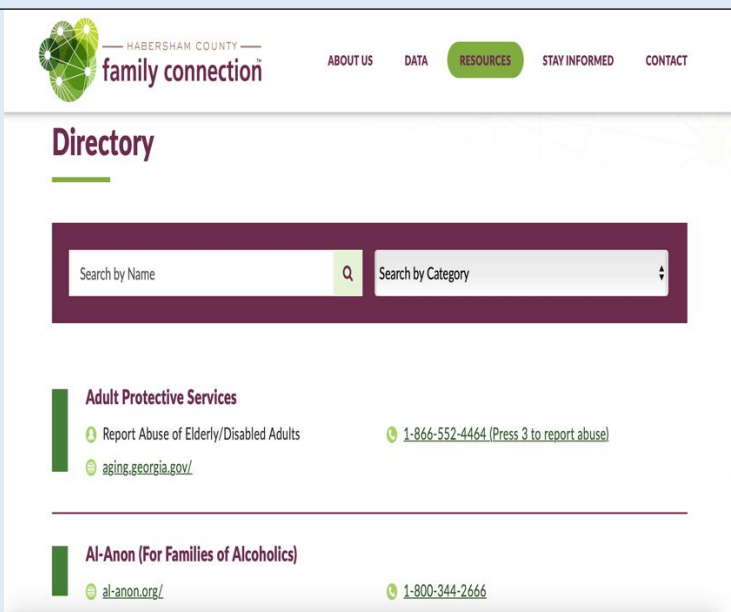

Website:
habersham.gafcp.org

Click GET RESOURCES tab

***For the Community Resource Brochure, you can download and/or print out either the English or Spanish version**

***Scroll down the page for additional information on community agencies under the resource directory.**

***Not all agencies are listed on the community resource brochure due to availability of space. The resource directory page allows for additional agencies to be listed with their information.**

Also, for those agencies that are listed on the community resource brochure – this allows for additional information to be added besides the phone number such as address, website, email information, etc.

If any agency needs to be added to the resource directory or if any corrections need to be made, please contact Donna Barrett dbarrett@habershamschools.com
